Frequently Asked Questions

What exactly does a school counselor do?
 I am here to promote and enhance your child's academic, career, and personal development through the Alabama State Guidance Plan and Counseling Standards.

Is everything that transpires during a counseling session confidential?
 I am bound by the Alabama School Counselor Associations' Code of Ethics. What is said in my room stays in my room **UNLESS**: Someone is hurt, wanting to hurt someone, wanting to hurt themselves, or they give me permission to share with another trusted adult.

How can students or parents take advantage of the more "individualized" services the counseling program has to offer?
 Students can self refer, be referred by their teacher or you can refer your child.

Disclaimer: "Please note that the school counselor does not provide "therapy" or "traditional counseling." Referrals for outside counseling services are available for children experiencing divorce, family separation, grief, or mental health concerns."
